Vital Vibes

Having lost most of his hearing a number of years ago, this elderly man goes to the doctor to be fitted with hearing aids, which promise to allow him to hear 100%. A month later, he returns to his doctor for a check up on his progress. The doctor tells him that his hearing is now perfect and ask him if his family is excited about his restored hearing. The man says, "Oh, I haven't told them about the hearing aids yet. I just sit around the house and listen to them talk as though I can't hear what they're saying. I've changed my will three (3) times already!"
